PU & S4H (PERSONAL USE & SCRAP4HIRE) LICENSE

- You may use my graphics for all your own personal (non commercial) projects: feel free to alter them to fit your needs!
- You may use my graphics to create layouts to submit to any online gallery or to send to any magazine for publication, provided that you credit back to "Laitha Art Studio" with the name of the product used and/or with a link to the product used in the store where you bought it.
- You may use my graphics to create scrapbook pages or album for others (Scrap4Hire) for a single customer per product, as long as the customer is provided with either a physical product (printed pages) or a flattened digital jpg file. Quick pages, blank photo cards and blank templates are not allowed. You are not allowed to sell creations made with my products in a web-based scrap for hire or graphic design store (included, but not only, your own store or site like Etsy).
- You can't use our logos or name to advertise your business in online marketing.
- You may use our graphics to create tangible crafts for your small business, including greeting cards, candy wrappers, posters, altered books/paint cans, stationery, labels and papers, as long the amount does not exceed 100 units and for a single customer per pack. Blank templates and blank photo cards are not allowed. You may not, in any case, provide the customer with the digital form of the products you create, flattened or not.
- You may use my graphics to create personal blogs and websites, as long as your creations are uploaded at 72ppi and assembled in a way that elements or papers can't be easily right-clicked and extracted.

CU (COMMERCIAL USE) LICENSE

- You may use my graphics to create scrap kits and related products to sell; your sets could NOT contain only items created using my graphics: a maximum of 30% is allowed.
- You may create quick pages, blank templates, blank cards and digital photo albums for a single customer per product provided that they only receive the physical product (printed pages) or the final, flattened digital version (i.e. no layered files, no individual papers/elements files, etc) saved as either png or jpg formats.
- You may create blogs and websites for one customer per product, as long as you create and assemble them at 72ppi and in a way that elements or papers can't be easily right-clicked and extracted.
- You may NOT create other CU products.
